

Southern Illinois University's

Physics, Chemistry and Biochemistry Departments

Present

The Boris Musulin Lecture Series

July 11-13, 2007

Featured Speaker

Prof. Stanley I. Sandler

H.B. duPont Chair of Chemical Engineering

Director of CMET, Professor of Chemistry and Biochemistry

Department of Chemical Engineering

University of Delaware

Wednesday, July 11th, 3:30 pm

“The Use of Quantum Mechanics in Thermodynamics and Molecular Simulation”

Thursday, July 12th, 3:30 pm

“Adsorption and Transport in Nanoporous Materials”

Friday, July 13th, 10:00 am

“Chemical Weapons: What are they, where are they, and what are we doing about them?”

All lectures held in Browne Auditorium: Parkinson Hall, Room 124
