I. CONTACT INFORMATION

Home Mailing Address and Phone: 3 Pinewood  
Carbondale, IL 62901  
(618)-457-8517

Office Mailing Address and Phone: Department of Physics  
Neckers 483A  
Southern Illinois University  
Carbondale, IL 62901  
(618)-453-2044

e-mail: [aldo@physics.siu.edu](mailto:aldo@physics.siu.edu)

FAX: (618)-453-1056

II. EDUCATION

- Ph.D. in Physics, May 1984; The Pennsylvania State University, University Park, Pennsylvania
- M.S. in Physics, November 1982; The Pennsylvania State University, University Park, Pennsylvania
- B.S. in Physics, June 1977; Universidad Peruana Cayetano Heredia, Lima, Peru

III. PROFESSIONAL EXPERIENCE

- August 1999 to August 2009, Chair, Department of Physics, Southern Illinois University at Carbondale
- May 1997 to December 1997, Acting Chair, Department of Physics, Southern Illinois University at Carbondale
- Fall 1993 to present, Professor of Physics, Southern Illinois University at Carbondale
- Spring 1990 to Fall 1993, Associate Professor of Physics; Southern Illinois University at Carbondale

- Fall 1986 to Spring 1990, Assistant Professor of Physics; Southern Illinois University at Carbondale
- March 1984 to July 1986, Post-doctoral Research Associate, Department of Physics, University of Washington, Seattle, WA
- November 1978 to February 1984, Teaching and Research Assistant, Department of Physics, The Pennsylvania State University, University Park, PA
- April 1977 to June 1977, Physics Instructor, Universidad Peruana Cayetano Heredia, Lima, Peru

#### IV. ADMINISTRATIVE ACCOMPLISHMENTS/ LEADERSHIP EXPERIENCE

##### *a) Program Development*

- Wrote a successful proposal for the Doctoral Program in Applied Physics for the Department of Physics at SIUC. The doctoral program was approved by the Illinois Board of Higher Education on February 1, 2005. It is now in full operation. Graduate enrollment in the Department of Physics is at an all-time historic high as a result of the availability of this program.

##### *b) Junior faculty mentoring*

- Effectively mentored junior faculty members through the tenure-probationary period (specifically, advised them where to submit external proposals, critically read their research proposals, gave them suggestions for how to approach specific topics in courses they were teaching, gave advice regarding how to deal with graduate students, etc.). As a result, every one of the eight cases for promotion that came from during my tenure as Chair were successful.

- During my tenure as Chair, junior faculty in the Department received: four NSF CAREER awards, four other standard NSF awards, an award from the NIH, three Summer Fellowship awards from the Air Force, three awards from the Petroleum Research Fund, one from the Department of Energy, two from the Research Corporation, one from the Department of Defense and two from private companies.

One of the junior faculty hired during my tenure as Chair received a *PECASE* (Presidential Early Career Award in the Sciences and Engineering). She remains the only PECASE recipient that our institution has ever had.

*c) Strategic Planning*

- Developed the first ever departmental strategic plan. After discussion and modifications, this plan was approved by the faculty.
- Reviewed and updated of the strategic plan after each major goal was accomplished (e.g. the approval of the doctoral program in Applied Physics).

*d) Promoting Research*

- Developed and successfully implemented policies to increase research activity in the Department. These policies include:
    - establishing workload assignment policies that favor the submittal of external proposals;
    - establishing a policy that returns 50 % of the departmental overhead recovery funds to the faculty members that generated them.
- As a result during my period as Chair, ten out of twelve faculty members were externally funded.

*e) Faculty and Student Recruitment*

- Successfully worked to promote diversity among the faculty of the Department. As a result, the Department increased its number of Hispanic faculty, hired its first woman faculty member, and hired its first black faculty member ever.
- Developed new strategies for obtaining graduate student applicants from a variety of source countries. The Department started a systematic e-mailing to departments of Physics from universities in the former Eastern Block and in Latin America. As a result the Department received its first graduate students from countries which were part of the former Soviet Union and our first graduate student from Colombia.

*f) Department Organizational Structure*

- Wrote the Operating Paper for the Department of Physics. The Operating Paper specifies the structure of the department and the rules under which different activities are conducted. This document was approved by the majority of the faculty in the Department, and was then approved by the Dean of the College, the Provost, and the Chancellor. This Operating Paper, with very few subsequent amendments, is still in effect.

*g) Administrative Shared Governance*

- Instituted a policy of transparency in all budgetary decisions. Incorporated the department's faculty in all major decisions involving budgets; budget cuts; and, personnel evaluation and review.
- Produced the form currently in use for the evaluation of the Department Chair (a process that takes place every three years)

*h) Academic Assessment*

- Developed assessment plans for the Department's Master's, Bachelor's and doctoral degree programs.
- Completed a comprehensive departmental productivity self-study and lead the Department through internal and external program evaluations. The previous departmental evaluation had been conducted in 1986.

*i) Course Development*

- Participated in the development of a course in Integrated Science, a joint effort by faculty from the Colleges of Education and Science, designed to allow Education majors to fulfill the State of Illinois' teaching certification requirements in science. Have taught that course three consecutive years, and wrote the Physics portion of the laboratory manual for it.
- Lead departmental efforts to modernize one of the two Core Curriculum course offerings in the Department of Physics, including a complete updating of its laboratory.

V. PROFESSIONAL MEMBERSHIPS

- Member of American Physical Society
- Member of the National Society of Hispanic Physicists
- Member of the American Institute of Chemical Engineering (AIChE)

VI. HONORS AND AWARDS

- Selected as Fulbright Specialist by the J. William Fulbright Foreign Scholarship Board, in 2013
- Elected member of the Peruvian National Academy of Science, November 3, 2011
- Elected Fellow of the American Physical Society, November of 2005
- Elected Technical Officer for the National Society of Hispanic Physicists, 2003-2006 term
- Selected winner of the NorthEastern Association of Graduate Schools Annual Book Award in the Natural Sciences and Engineering, 1985

- Selected winner of the Davey Fellowship, Pennsylvania State University, 1981

## VII. GRANTS

- Principal Investigator, "Heat Capacity Study of Alkane Films Adsorbed on Graphite", type G grant from the Petroleum Research Fund of the American Chemical Society, \$18,000; from 1/88 to 8/90
- Principal Investigator, "Heat capacity study of hydrocarbons adsorbed on graphite", National Science Foundation, \$157,000; from 1/91 to 8/94
- Principal Investigator, "Adsorption studies of simple molecules on Boron Nitride", type B grant of the Petroleum Research Fund of the American Chemical Society, \$20,000; from 5/92 to 8/96
- co-Principal Investigator, "Application of APS for Characterization of Residual Stress in Silicon Nitride Composites", with Dale Wittmer and Rasit Koc (of the Department of Mechanical Engineering and Energy Processes), CARS-Univ. of Chicago, \$100,000; from 9/97 to 9/98
- Principal Investigator, "Thermodynamic Studies of Films Adsorbed on BN Substrates", type B grant of the Petroleum Research Fund of the American Chemical Society, \$25,000; from 5/96 to 8/98
- co-Principal Investigator, "Application of APS for Characterization of Residual Stress in Silicon Nitride Composites", with Dale Wittmer (of the Department of Mechanical Engineering and Energy Processes), CARS-Univ. Of Chicago, \$100,000; from 9/98 to 9/99
- Principal Investigator, "Adsorption Studies of Simple Molecules on Carbon Nanotubes," Research Corporation, \$37,843; from 5/98 to 8/03
- co-Principal Investigator, "Application of APS for Characterization of Residual Stress in Silicon Nitride Composites", with Dale Wittmer (of the Department of Mechanical Engineering and Energy Processes), CARS-Univ. Of Chicago, \$100,000; from 9/99 to 9/00
- Principal Investigator, "Adsorption Studies on Carbon Nanotubes", Petroleum Research Fund, \$30,000; from 5/00 to 6/03
- co-Principal Investigator, "Application of APS for Characterization of Residual Stress in Silicon Nitride Composites", with Dale Wittmer (of the Department of Mechanical Engineering and Energy Processes), CARS-Univ. Of Chicago, \$100,000; from 9/00 to 9/01

- Principal Investigator, “Adsorption Studies on Carbon Nanotubes”, National Science Foundation, \$300,000; from 1/01 to 1/07

- Principal Investigator, with S. Talapatra, B. Dave, and K. Mondal, Equipment grant, “ASAP 2050 Xtended Pressure Sorption Analyzer”, Micromeritics Instrument Corporation, February 2009

- Principal Investigator, with co-PI M. M. Calbi, “Polyatomic adsorbates on carbon nanotube bundles” (DMR-0705077), National Science Foundation, \$330,000; from 07/01/07 to 06/30/11

\*- Principal Investigator, with co-PIs M. M. Calbi (from SIUC) and S. Gatica (Howard University), “Collaborative Research: Carbon Nanohorns: Adsorption Kinetics and Equilibrium, Experiments and Simulations:” (DMR-1006428), National Science Foundation, \$315,000; from 08/01/10 to 07/31/14

- Fulbright Specialist Grant, at the Universidad Nacional de San Luis (Argentina) July-August 2013 – to teach a course on “Adsorción Física sobre Substratos Nanoestructurados”, Bureau of Educational and Cultural Affairs, U. S. Department of State, March 2013

(\* denotes active grant)

## XI. TEACHING

### *Freshman/Sophomore Level:*

Physics that Changed the World (Physics course for non-science majors)  
Integrated Science part I (Science course for Elementary Education majors)  
University Physics, part A  
University Physics part B  
Modern Physics

### *Junior/Senior Level:*

Thermodynamics  
Electromagnetism I  
Electromagnetism II  
Classical Mechanics II  
Statistical Mechanics I  
Light  
Optics

### *Senior/Graduate Level:*

Statistical Mechanics II  
Special Topics: Phase Transitions  
Special Topics: Adsorption

## XII. STUDENT SUPERVISION:

### Undergraduate students advised:

- |                          |                     |                           |
|--------------------------|---------------------|---------------------------|
| - Mr. Kevin Bliss        | - Mr. Koon Kim Ong  | - Ms. Michelle Lukowitz   |
| - Mr. Yuzo Toya          | - Ms. Liv Arnold    | - Ms. Erica Mackie        |
| - Ms. Kanvasi Tejasen    | - Ms. Sarah Weber   | - Mr. Nathan Dolan        |
| - Mr. Weylin McMillin    | - Ms. Beth Barker   | - Mr. Gabriel Shaughnessy |
| - Mr. Dutch Minnot       | - Ms. Naomi Taylor  | - Mr. Luke Heroux         |
| - Mr. Brad Musick        | - Ms. Kathleen Lask | - Ms. Margaret Bialecki   |
| - Mr. Toyohisa Furuhashi | - Mr. Brice Russell | - Mr. Angel Calvillo      |

### Master's Students advised:

- |                                |                            |                         |
|--------------------------------|----------------------------|-------------------------|
| - Mr. Shu Zhang                | - Mr. Mazin Alkhafaji      | - Mr. Mark Meldrim      |
| - Mr. Praful Shrestha          | - Ms. Myung-ae Lee         | - Ms. Ruth Anne Wolfson |
| - Ms. Wenkum Li                | - Ms. Shyamali Saha        | - Mr. Armand Diama      |
| - Mr. Saikat Talapatra         | - Mr. Antonio Zambano      | - Mr. Dinesh Rawat      |
| - Mr. Tareque Aziz             | - Ms. Vaiva Krungleviciute | - Mr. Luke Heroux       |
| - Mr. Murat Bulut              | - Mr. Toyohisa Furuhashi   | - Mr. Joshua Stoll      |
| - Mr. Shree Banjara            | - Mr. Carl Ziegler         | - Mr. Brice Russell     |
| - Mr. Dinuka Gallaba Mudiyanse |                            |                         |

### Doctoral Students advised:

- Dr. Guoliang Yang, dissertation supervisor jointly with Prof. K. W. Johnson, degree in Molecular Science received in 1992
- Dr. Shu Zhang, dissertation supervisor, Ph.D. in Molecular Science, degree received in 1994
- Dr. Mazin Alkhafaji, dissertation supervisor, Ph. D. in Molecular Science, degree received in 1996
- Dr. Richard Holland, co-Chair dissertation committee with Prof. K. Johnson, Ph. D. in Molecular Science, degree received in 1999.
- Dr. Myung-ae Lee, dissertation supervisor (with Prof. D. Wittmer), Ph. D. in Engineering Science, degree received in 2000
- Dr. Saikat Talapatra, dissertation supervisor, Ph. D. in Engineering Science, degree received in 2002
- Dr. Vaiva Krungleviciute, dissertation supervisor, Ph.D. in Applied Physics, degree received in August 2009
- Dr. Dinesh Rawat, dissertation supervisor, Ph.D. in Applied Physics, degree received in August 2010

- Dr. Alberto Albesa, from the Universidad Nacional de La Plata (Argentina), co-advisor with Prof. Jose Luis Vicente, March 2011

- Mr. Brice Russell, currently working towards his Ph. D. in Applied Physics at SIUC.

### XIII. UNIVERSITY SERVICE

- Member of the Graduate Committee of the Department of Physics, uninterruptedly, since 1986

- Member of the Executive Committee of the Molecular Science Program, 1991-1994

- Graduate Advisor in the Department of Physics from 1994 to 1999.

- Member of the College Operating Paper Committee, November 1998 to May 1999

- Member of the University Calendar Committee, October 1998 to August 1999

- Member of ad-hoc committee developing procedures for the evaluation of Deans, 1999

- Member of the College Personnel Committee in 2002

- Member of the selection committee for the Outstanding Teacher in the College of Science 2001 and 2002

- Member of the Development Officer Selection Committee for the College of Science 2004 and 2005

- Elected to the SIU Faculty Senate, representing the College of Science, 2005-2008

- Member of the Budget Committee of the Faculty Senate, 2005-2008

- Member of the Outstanding Researcher of the College of Science Selection Committee, 2006

- Member of the Development Officer Selection Committee for the College of Science 2006-2007

- Member of the university-wide Committee in charge of the selection of the Outstanding Scholar, 2006

- Member of the Presidential Committee Examining Diversity in Graduate Programs at SIU, 2006- 2007

- Member of the university-wide Honorary Degree and Distinguished Service Award Committee 2006-2010.
- Member of the Special Committee on Enrollment Management, 2007-2008.
- Member of the Policy Committee for the College of Science 2008 and currently.
- Member of the Search Committee for the Interim Dean of the College of Science, 2012
- Member of the College of Science Curriculum Committee 2012 and currently
- Member of the College of Science Committee on Assessment, 2013 and currently

#### XIV. PROFESSIONAL SERVICE

- Elected Departmental Representative for the Southern Illinois University-Carbondale Faculty Association, 1996-1999
- Elected College Representative for the College of Science for the Southern Illinois University-Carbondale Faculty Association, 1996-1999
- Technical Officer of the National Society of Hispanic Physicists, 2003-2006 term
- National Society of Hispanic Physicists (NSHP) representative in the organizing committee for the first joint meeting of the National Society of Black Physicists and the NSHP (2005).
- Elected College Representative for the College of Science for the Southern Illinois University-Carbondale Faculty Association, 2010-2012, 2012-2014, and 2014 and currently
- Member of the Grievance Committee of the Southern Illinois University Faculty Association, 2010 and currently
- Co-Chair of the Grievance Committee of the Southern Illinois University Faculty Association, 2012 and currently

#### XV. OTHER PROFESSIONAL SERVICE

##### *Journal Refereeing*

Refereed articles for: Physical Review Letters, Physical Review B, *Nature*, *Langmuir*, *Advanced Materials*, Review of Scientific Instruments, Applied Physics, *Nano Letters*, Journal of Chemical

Physics B, Journal of the American Chemical Society, Journal of Physical Chemistry C, Chemical Physics Letters, *Adsorption*, Surface Science, Surface Review and Letters, Industrial & Engineering Chemistry Research, Journal of Low Temperature Physics, Physical Chemistry and Chemical Physics, Avances en Ciencias e Ingeniería (Chile)

*Proposal Refereeing*

- Participated in an NSF interdisciplinary panel on Integrative Graduate Education and Research Traineeship (IGERT) Preliminary Proposals in the area of renewable/alternative energy, from the NSF Directorate for Engineering, Division of Chemical, Bioengineering, Environmental, and Transport Systems (CBET)
- Participated in an NSF panel for the Materials World Network of the Division of Materials Science (2010)
- Refereed proposals for:
  - the National Science Foundation
  - the Army Research Office
  - the Petroleum Research Fund of the American Chemical Society
  - the Research Corporation
  - the state of Louisiana
  - the Chilean Science Foundation (FONDECYT).

*Evaluated faculty Tenure and Promotion dossiers for:*

- Pennsylvania State University,
- University of Missouri at Kansas City,
- Utah State University,
- University of Texas at El Paso
- Universidad Catolica de Chile,
- Wayne State University,
- University of Memphis
- Duke University
- Howard University
